DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II, claims 3-7 in Paper No. 4 is acknowledged.
2. Claims 1 and 2 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 4.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by TRUEBA, US 5,560,837.

Claim 7 is rejected because TRUEBA teaches a method for forming an ink-jet component, said method including the fabrication of a supported mask, comprising obtaining a support (col. 5, lines 60-62); applying at least one layer of dielectric material to said support (col. 6, line 2); exposing and developing layer by patterned light (col. 6, lines 4-9).

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 3-6 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 2, 10 and 11 of U.S. Patent No. US 6027630. Although the conflicting claims are not identical, they are not patentably distinct from each other because each set of claims similarly disclose a method for obtaining a supported mask comprising first and second supports, a conformable material on a second support, said second support comprising an elastomeric material.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. SEWELL et al. US 4,921,583 who teach a supported mask.
